**BiznesUp! design made in Poland –  
24 - 25 May in Łódź!**

2018-04-12 18:05:49

**BiznesUp! design made in Poland is an international project addressed to designers and producers, as well as distributors of products and services from the design industry.**

It is one of a few events organized in Poland, where the most valued Polish contemporary design creators will present themselves during the two days forum. The aim of the project is to promote native design domestically and internationally.

The event will be an opportunity to meet the most respected Polish artists, as well as to establish new business contacts, all in one place. In addition to leading designers, producers and distributors, we will also be hosting representatives of international chambers of commerce and design industry experts.

**BiznesUp! design made in Poland** will take place on **May 24-25, 2018** (Thursday and Friday), **during the 12th Łódź Design Festival**. Thanks to the synergy of both events, participants will be able to take part in various festival events at the same time. Events will be held in Art\_Inkubator at 3 Tymienieckiego Street in Łódź.
