2018-06-18 14:05:59

SYNERGY OF EVENTS: Polagra Tech, TAROPAK, Polagra Gastro, 4 PRINT WEEK, POLIMER TECH, Tastes of the Regions - Poznan, Poland.

SYNERGY OF EVENTS

Polagra Tech 2018 30.09-04.10.2018

Two exhibitions and maximum business opportunities. As early as this autumn two exhibitions will take place: The BAKERY AND CONFECTIONARY TECHNOLOGIES EXHIBITION from 30 September to 4 October and the FOOD TECHNOLOGIES EXHIBITION from 1 to 4 October.

This is where visitors from all over the world - professionals - can find inspiration to create new tasty preserves. POLAGRA TECH 2018 is a rich offer for the food technology industry, i.e. among others, equipment for food conditioning can be seen as well as control and measurement equipment, hygienic and pest protection agents, cooling devices filling, fruit and vegetable, dairy, pasta manufacturing equipment and means of transport. This year, as typical in even years, a big exhibition of bakery and confectionery technologies will be also held, where manufacturers and distributors of Polish and world brands will prepare mixtures and components as well as complete technological lines for the confectionery, bakery and ice-cream industries.

4 PRINT WEEK 01.10-04.10.2018

4 PRINT WEEK is a new chapter in the tradition of printing meetings of Poznań International Fair. In response to the expectations of the industry, the event will be held jointly with TAROPAK International Fair for Packaging and Labelling Technology. 4 PRINT WEEK focuses on modern technologies, 3D print, solutions dedicated to various sectors of industry and offset techniques. At the same time, the second edition of the **ART OF COLOR - NEW DIMENSION OF PRINT** Congress will be held. The subject of the fair and the accompanying congress will be attractive mainly for printing market participants, owners and technical directors of printing works, designers, designers of packaging and labelling as well as for advertising agencies and publishing houses. 4 PRINT WEEK is not only an excellent forum for discussions on the technological development of the printing market in Poland but also the place for integration of the whole sector.

POLIMER TECH 01.10-04.10.2018

Technology for Polymer Processing Fair - POLIMER TECH response to the growing demand of the industry in the scope of the latest technologies associated with the production and processing of polymers.

The fair exhibition comprises innovative solutions in the technological, product and organisational area. The idea of POLIMER TECH fair is to enhance the feeling of responsibility of both the industry and the society for climate protection. It should be achieved through effective use of energy and raw materials, with simultaneous attempt aimed at eliminating depositing of plastics as the main method of waste management.

Tastes of the Regions

The TASTES OF THE REGIONS fair commencing on Saturday is mainly the event for aware consumers who search for natural, certified, regional foodstuffs. It is also a family event during which we educate small and big consumers on the virtues of traditional bread, nutrition values of fruit and vegetables and we encourage to joint preparation of healthy meals. Chefs - masters preparing traditional and regional dishes will be also present at the TASTES OF THE REGIONS fair. We can expect three delicious days!
